HUSKEY™ GOLD BRONZE **ANTI-SEIZE ALL PURPOSE THREAD COMPOUND**

DESCRIPTION

HUSKEY GOLD BRONZE is our most popular copper and zinc powder based compound. Although **GOLD BRONZE** is in a medium price range, it may be used in all but the most severe drilling conditions. **HUSKEY GOLD BRONZE** also contains rust and oxidation inhibitors homogenized into a high temperature grease base.

USAGE

HUSKEY GOLD BRONZE is formulated to provide maximum protection and efficiency to both rotary tool joints and drill collars (with the exception of large diameter drill collars). It greatly reduces foot/pound torque on break-outs and prevents galling and seizure on shouldered connections.

ADVANTAGES

HUSKEY GOLD BRONZE provides maximum protection to threaded connections of rotary shouldered drill strings at prices that provide substantial savings over competitive brands.

SERVICE RATING

0EF (-18EC) to 1000EF (537EC).

OPERATING RANGE

Base grease provides lubrication to 430EF (232EC). Lubricating solids lubricate to 1900EF (1037EC).
