## HUSKEY™ SMP GREASE

### DESCRIPTION

**HUSKEY SMP GREASE** is a unique high-temperature, extreme pressure, non-melting, non-caking grease designed for extreme service applications. Blended from pure synthetic base oils and thickeners then coupled with the most modern extreme pressure and anti-wear additives to provide a tough, durable lubricating film that protects against metal to metal contact. **HUSKEY SMP GREASE** is designed to withstand temperatures from -30°F (-34°C) to 530°F (277°C) with intermittent usage to 600°F (318°C).

### USAGE

**HUSKEY SMP GREASE** was designed primarily for high-temperature steel mill applications and wet environments but has unsurpassed performance in normal grease applications. Due to its high film strength, anti-wear properties and wide temperature range it may be used in a wide variety of applications found in textile, mining, paper, automotive, agricultural and wood industries.
