

MOLYDUVAL

Ferroxin

Penetration Fluid, Rust Loosener

A light colour penetrating and corrosion preventive oil. Special usable for loosening, lubricating and preserving tools, screws, machine parts of all kind, also as rust removing and rust protecting agent.

Properties

- * good lubrication performance
- * good penetration
- * infiltrates water
- * looses dirt and residues
- * free of silicones
- * protects against corrosion
- * infiltrates humidity
- * seal surfaces
- * protects from wear
- * no electrical conduction
- * low aromatic content
- * even available in hand spray bottles
- * freely of acids

Applications

- * for hot screw connections at turbines, exhausts, cogwheels, valves, chains, slidings, waves
- * for lubrication and preservation of machine parts, screws, valves, nuts, bolts, springs, hinges, locks, etc.
- * for loosening of seized or rusted parts, screws, ropes, springs, hinges, chains, valves
- * for protection of tools and instruments in storage
- * for cleaning engines, motors, steerings
- * as water displacing agent for accus, contacts, controls, switches
- * as contact spray for starting wet engines
- * for cleaning tools and machines
- * for cleaning inox containers and machines
- * for spraying of vehicle bottoms

Technical Datas

Color		klar
Base Fluid		Mineral
Viscosity 20°C	mm ² /s	2-4
Density 15°C	kg/m ³	830
Temperature Range	°C	-30 -> +80
Pour Point	°C	-60
Flash Point	°C	63
